\$90.00	260
\$100.00	290

* based on call duration of 1.25 minutes and 30% TDU - TDU Calls. This is a guide only

How the plans work

Our service provider offers both On Account and Pre Paid Plans.

On Account Plans

We send you a monthly invoice via email and direct debit your credit card monthly. For more information on how the billing works request information now.

Our Plans work in the following way:

The \$25.00 , \$45.00, \$70.00, \$99.00 Plans

The higher the plan you commit to the better the call and text rates become. When you commit to one of these plans you are committing to a monthly minimum spend of that amount. For example if you chose the \$45.00 you will be charged a minimum of \$45.00 even if you only make a few calls. Within the \$45.00 you receive \$45.00 of included calls and text or other services like web browsing. Once you have used up all the included credit in your plan you will be charged at the plan

rates. There is no limit, although we reserve the right to debit your credit card if your account goes over \$150.00

Pre Paid Plan

It is important to know that you must have a credit card to use this service.

Our pre paid plan puts you in control. You can recharge any amount over \$30. You can set the type of recharge method you would like. [Find out more...](#)
